### DETAILED ACTION

This application was filed 4/7/2006 and is a 371 of PCT/IB04/00208 (1/29/2004), which claims priority to International Bureau of the World Intell 03/04741 (10/28/2003). Claims 1-55 are before the Examiner. Claims 56-57 are not included in the below restriction requirement because they are drawn to non-statutory "Use of" subject matter.

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 14-36 and 41 (specifically) and claims 1-13,37-55 and 58-59 (generically) drawn to compounds, compositions, methods of making and methods of using wherein Ar is phenyl and R1 and R2 are chains or non-hetero rings with an election of a single disclosed species.

Group 2, claim(s) 1-13,37-40, 55-55 and 58-59 (generically) drawn to compounds, compositions, methods of making and methods of using wherein R1 and R2 with the phenyl ring

Group 3, claim(s) 1-13,37-40, 55-58 and 59 (generically) drawn to compounds,

compositions, methods of making and methods of using wherein R1 and R2 are  and H.

Group 4, claims 1-13,37-40, 54-58 and 59 (generically) drawn to compounds, compositions, methods of making and methods of using wherein Ar is phenyl and R1 and R2 are other than tricyclic non-heterocyclic ring with an election of a single disclosed species.

Group 5, claims 1-13,37-40, 54-58 and 59 (generically) drawn to compounds, compositions, methods of making and methods of using wherein Ar and R1 and R2 are other than encompassed by the above groups 1-4 with an election of a single disclosed species.

1. The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature that all the groups have in common is a benzyl moiety which is well known in the art and have many various and different utilities such as a cleanser.

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
